Introductory note

In the context of the Action "CAN-MDS II", the National CAN-MDS Administrator¹ is responsible for the day-by-day administration of system's operation following the instructions by the Administrative Authority and in close collaboration with the Local Coordinator and National Inter-sectoral Board. Moreover, the National Data Administrator is responsible to follow up the CAN-MDS system; ensure that the system operates following the provisioned technical and organisational security measures²; maintain a record of processing activities; and notify the National Administrative Authority ('data controller') of any potential data breaches.

¹ National CAN-MDS Administrator or '*data processor*' in the context of CAN-MDS is the natural person who processes the data on behalf of the data controller, following strict instructions

² As they set by design in the CAN-MDS System and described in the CAN-MDS Policy and Procedures Manual

In the following pages specific practical information and step by step instructions are available for each aspect of the tasks that National CAN-MDS Administrator should take care during the project. Further information for the role of the National Data Administrator is included in the Data Processing Agreement (DPA) and the Appendix accompanying the agreement between National Administrative Authority and National Data Administrator.

Specific tasks of National Administrator(s)

CAN-MDS Data Sources-related

The National Data Administrator along with and/or on behalf of the National CAN-MDS Administrative Authority:

- Cooperates with National CAN-MDS Inter-sectoral Board (including active participation in meetings)
- Identifies eligible organizations-data sources and invites them to officially participate in CAN-MDS³
- Creates Organizations' accounts (on the basis of the pre-defined instructions⁴)
- Administrates Organizations' accounts (additions/updates/deletions)
- Maintains "CAN-MDS Data sources" accounts file
- Communicates with Organizations-data sources' Administrations, when necessary.

CAN-MDS OPERATORS-related

The National Data Administrator along with and/or on behalf of the National CAN-MDS Administrative Authority:

- Applies eligibility criteria to identify CAN-MDS Operators working in cooperating agencies in relevant sectors⁵
- Invites professionals to officially participate in CAN-MDS as *Operators*⁶
- Takes care of capacity building of potential Operators and provides them with the necessary material⁷
- Creates Operators' accounts (based on the pre-defined instructions, including assignment of access level)⁸
- Administrates eligible CAN-MDS Operators accounts (additions/updates/deletions)
- Maintains a "CAN-MDS Operators" accounts file
- Communicates with Operators, when required providing them with support on issues related to technical and operational aspects of the system (with the support of Local Coordinator and Project Coordinator, when needed)

CHILDREN-related DATA

The National Data Administrator on behalf of the National CAN-MDS Administrative Authority:

- Communicates with professionals, when a CAN incident is recorded in the system
- Maintains and administrates an *off line data base* containing children's personal data^{9,10}
- Creates and administrates pseudonyms of children involved in CAN incidents¹¹

ANONYMIZED AGGREGATED EPIDEMIOLOGICAL DATA

The National Data Administrator following instructions by the National CAN-MDS Administrative Authority:

- Extracts and edits disaggregated anonymized incidence data (CAN surveillance at public health level)¹²
- Collects quantitative data concerning inter-sectoral cooperation and qualitative information from Operators
- Collects qualitative & quantitative data on operational and other aspects of the System
- Participates in National Board meetings and prepares relevant reports¹³

³ By signing bilateral agreements

⁴ Via username & password protected System's Administrator Interface and on the basis of instructions included in *Working Files 1 & 6* of the *Methodology for cultural adaptation of national CAN-MDS Toolkit*

⁵ According to the customized national pilot plan

⁶ On the basis of a "consent form" (taking into account *Working file 10* of the *Methodology for cultural adaptation of national CAN-MDS Toolkits*)

⁷ On the basis of the revised *CAN-MDS Training Module and ready to use training material* and the *Training Evaluation Methodology & Tools*

⁸ Via username & password protected System's Administrator Interface and on the basis of instructions included in *Working Files 2, 9 and 11* of the *Methodology for cultural adaptation of national CAN-MDS Toolkits*

⁹ On the basis of instructions included in *Working File 7* of the *Methodology for cultural adaptation of national CAN-MDS Toolkits*

¹⁰ i.e. children involved in child abuse and/or neglect incidents

¹¹ Following the guidelines the *ISO 25237:2017 Health informatics – Pseudonymization* and following the process described in *Figure Steps to be followed for obtain a Child's ID (pseudonym) of the Master Operator's Manual* (p.35, 36).

¹² By using the username & password protected System's Administrator Interface functions

The structure of this Manual is based on the main responsibilities of the National Data Administrator concerning the administration of a. data sources; b. operators; c. pseudonyms of children involved in CAN incidents (recorded by operators in the System); and d. anonymized, aggregated epidemiological CAN data.

e-CAN-MDS: Administrator's Interface

To login e-CAN-MDS Administrator's interface, go to www.can-mds.infowood.gr, enter **Username** and **Password** and press **Login**

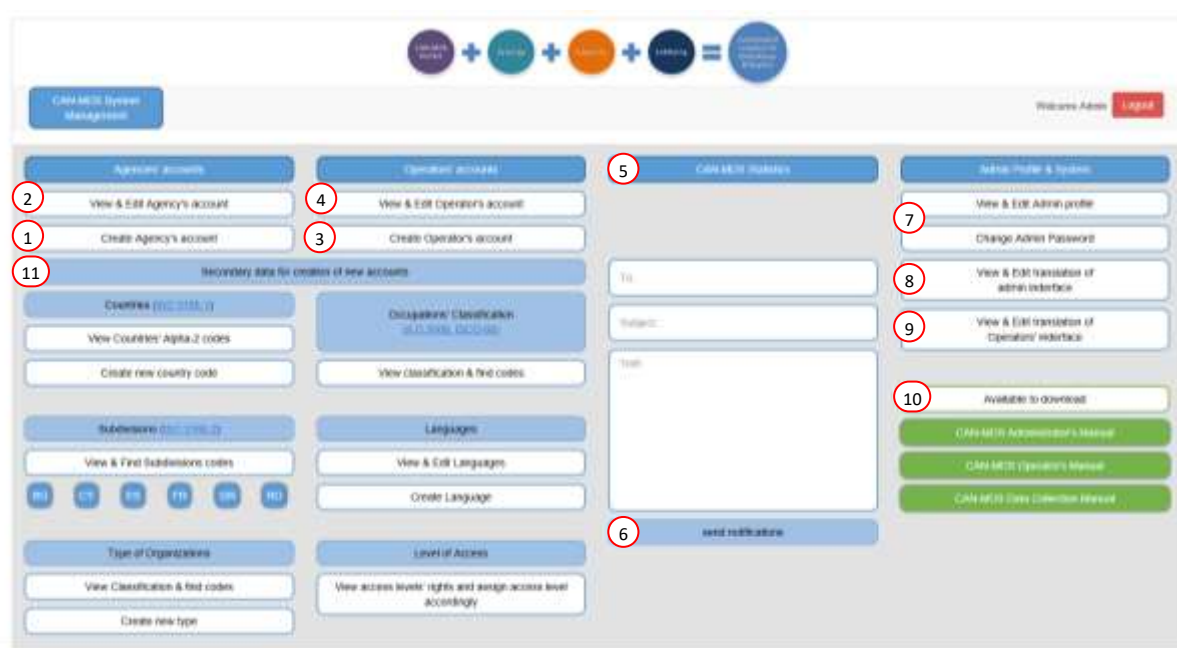

Note: The following introductory screen will appear providing information on

- the number of Agencies and Operators in the system at the specific moment (auto-updated)
- ID information of the Administrator
- ID information of the National Administrative Authority

CAN-MDS System Management

By clicking in the button "CAN-MDS System Management", the Administrator's menu appears (see below). Through this interface National Administrator is able

- 1
- 2 Create new Agencies' accounts
- 3 View and edit existing Agencies' accounts
- 4 Create new Operators' accounts
- 5 View and edit existing Operators' accounts
- 6 Extract statistics
- 7 Send notifications to Operators
- 8 View and edit Administrator's profile and password
- 9 View and edit translation of administrators interface
- 10 View and edit translation of Operators' interface
- 11 Download basic documents (in pdf format)

¹³ As provisioned in GA, D4.1-D4.4

Creating New Agency's ID through the CAN-MDS application

Agencies' accounts

View & Edit Agency's account

Create Agency's account

Press this button to create a new Agency's account

Edit Agency

Country *

Subdivision

type_of_organization *

Three Digit ID Number

Agency Name *

Street Name

Street Number or Plot

Post Code

Town

Phone

E-mail

Country: Select the country where the Agency is located from the drop-down menu (2-digit ISO code will auto-completed)

Subdivision: Fill-in the code of geographical subdivision where the Agency is located; you can find the subdivision code following the link corresponding to the country where Agency is located.

Example: Let's suppose you are looking for code of Blagoevgrad, BG

→ From the subdivisions menu click **BG**

→ The online browsing platform (for Bulgaria) will open

→ Scroll down to **Subdivision category** and find the 3166-2 code

Subdivision category	3166-2 code	Subdivision name
standard	BG-01	Blagoevgrad
standard	BG-02	Burgas
standard	BG-03	Varshina

Type of Organization: select the appropriate type of the specific Agency from drop-down menu.

TIP: In case the type of organization is not included in the list (e.g. is a country specific type), you can add the new type by using the option "Create

Type of Organizations

View classification & find codes

Create new type

Three digit ID Number: Numbering the Agency (001, 002, ..., 014, ..., 123...)

TIP: Last ID number is shown in the introductory page (in the example next

Agency's Name, postal address and contact details: Record full Agency's name, street name and number (or plot), post code, town, phone number and an email address.

Edit

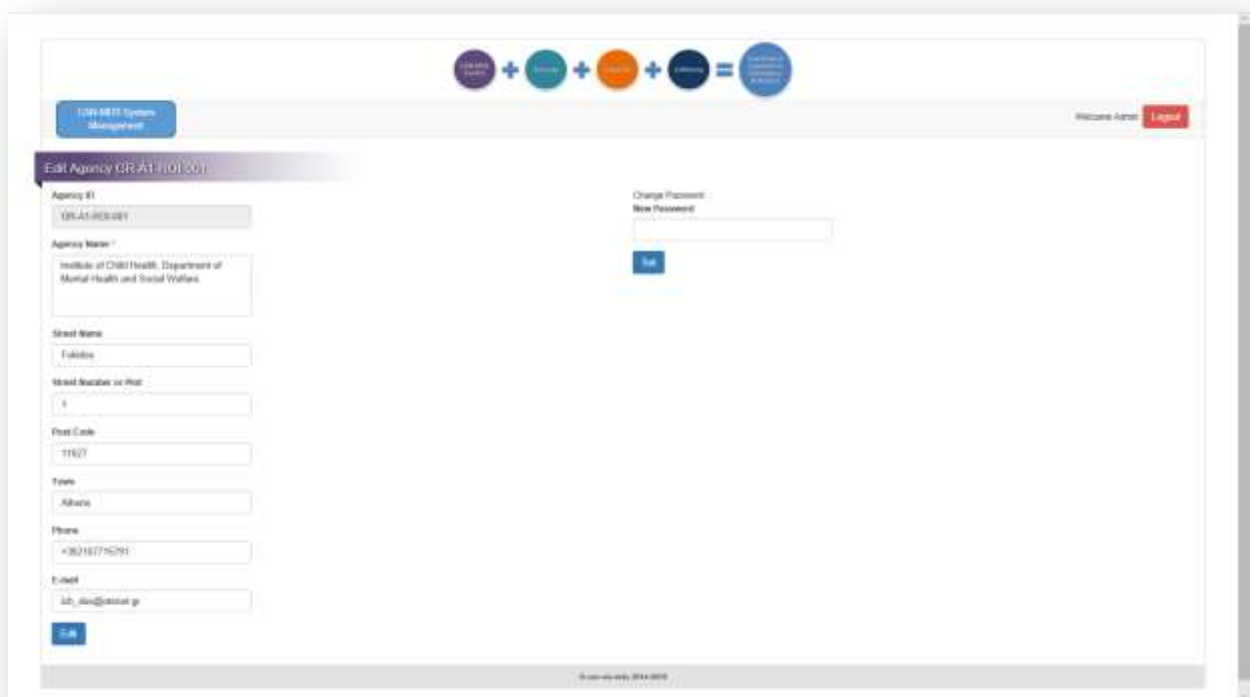

Once the above fields are completed click "Edit" in order for the new Agency's Account to be added in the database. Editing is possible, as explained below.

See also: Agency's ID-Examples
(page 17)

View & Editing existing Agencies IDs through the CAN-MDS application

- Click "Edit" to update or correct existing Agency's information (the following window will open)
- ⇒ **Note:** any piece of information can be modified apart from Agency ID

Creating New Operator's ID through the CAN-MDS application

Operators' accounts

View & Edit Operator's account

Create Operator's account

Press this button to create a new Operator's account

Edit Operators

Agency

Occupation *

Access Level

Three Digit ID Number(Operator)

Name

Username

language

Phone

E-mail

Password

Agency: Select the Agency where the Operator works from the drop-down menu

Note: Agency's ID is a prerequisite for the creation of Operator's ID)

Occupation: Select the professional specialty of the Operator from the drop-down menu (writing in the field you may find in an easier way the specialty); ILO ISCO-08 code will be auto-completed

TIP: Occupation code can be also found through the "View classification & find codes" where the full list of occupations and codes is available

Access level: Choose the appropriate access level from the drop-down menu

TIP: Information on rights of users per access level are available in the main menu, by clicking the next button

Three digit ID Number: Number of Operator WITHIN the Agency, as it is possible to have more than one operators in the same agency (001,

Operator's Name and contact details: Record Operator's name, phone number and an email address

Language: Choose the default CAN-MDS language for the specific Operator from the drop-down menu (currently CAN-MDS is available in 9 languages)

Username and Password: Record a short username that the Operator will use to enter the system and a password with at least 5 digits.

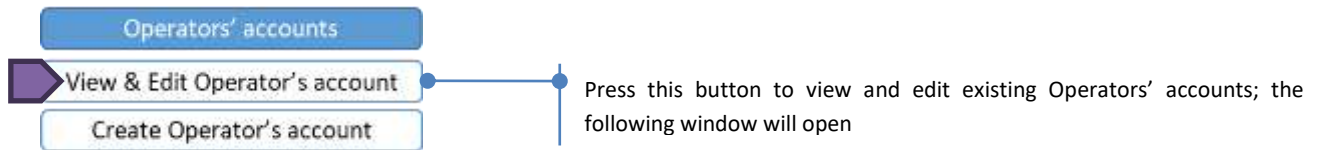

Note: Operator can change the password from the Operator's Panel> My

Once the above fields are completed click "Edit" in order for the new Operator's Account to be added in the database. Editing is possible, as explained below

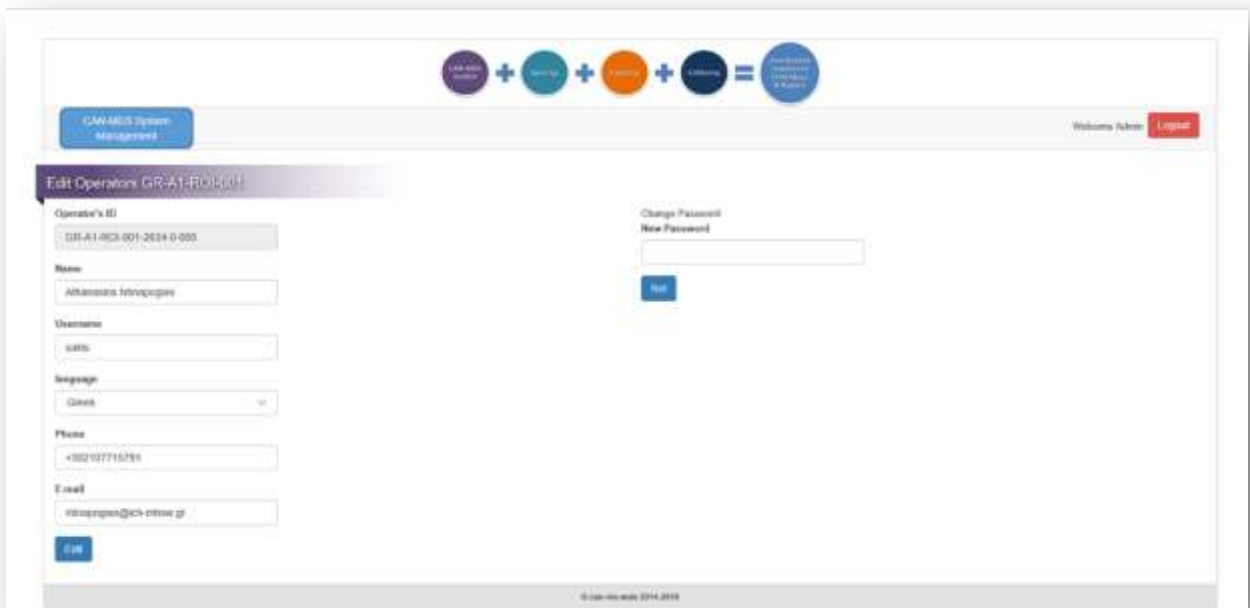

Edit

See also: Operator's ID-Examples
(page 19)

View & Editing existing Operators' IDs through the CAN-MDS application

-  Click "Edit" to update or correct existing Operator's information (the following window will open)

Notifications

Notifications: through this tool National Administrator will be able to send notifications to operators in their email accounts.

A notification can be general information/news addressed to all operators (send to all) or information related to a specific case or a specific operator or agency (and, therefore, it shall be sent to the specific operator).

Note: Operators will be able to see the notifications within the CAN-MDS application, in Operator's Panel > my current cases > Information.

By clicking into "To: " field, the next menu will open allowing the Administrator to select the who will be the recipients of a specific notification (all, one, or multiple)

Fields to add "subject" and "text" of notification

By clicking "send notifications" a message will appear either confirming sent or informing that something went wrong.

By clicking "view all notifications" a full history of all notification sent through this tool will appear; notifications can be sorted by date; subject; text; agency name; and email account.

Available material to download

Downloadable files: In order to facilitate the National Administrator, the main manuals and the data collection protocol will be readily available within the administrator's CAN-MDS application

Welcome Admin Logout

Logout: National Administrator can exit the application by clicking the logout button.

Note: When the Administrator's account remains active but without any activity for a 15' period, the application will be disconnected automatically for security reasons.

Examples: Agency's ID

Instructions for creating Agencies' IDs [DE_R1]

ID format	Instructions 9 or 10-digit CODE (depending on country) formulated as follows: + Country abbreviation (2 letters) ¹⁴ (see CAN-MDS Admin app and Annex IA) + Subdivision abbreviation (1 or 2 letters/numbers) ¹⁵ (see CAN-MDS Admin app and Annex IB) + Organization/Service Type (3 letters) (see CAN-MDS Admin app and Annex IC) + Organization/Service Number (3 digits) (see CAN-MDS Admin app and Annex ID)
Prerequisites	A detailed mapping of all related agencies on the basis of the information to be collected in the STEP A of the tool for the definition of eligibility criteria for CAN-MDS operators, including basic information on the type of service (such as health, mental health, social welfare etc.).
Secondary information needed:	Agencies' contact details a. necessarily email to be used in DE_18 for auto-notifications based on the referral(s) made by the Operator's Agency b. further contact details (telephone number(s), address) for the Annex I of the national version
Expected outcomes:	Two lists are expected to be developed: 1 st list will include all eligible agencies to be involved in the system along with contact details. 2 nd list will include all eligible agencies with their codes. Only System's Administrator will have access in this list including paired "Agency-Code".
NOTE	Agencies' IDs will also be used for the formulation of Operator's ID working in the respective agencies (as 1 st part).

Eligible Agencies to be involved in CAN-MDS and to be used as data sources for a CAN-MDS Surveillance system are expected to belong in the following fields:¹⁶

Fields related to CAN-cases administration	Eligible in the following countries	
Child Protection Services/ Social Welfare Services	BE-BG-CH-DE-ES-FR-GR-IT-RO	Relevant agencies/ organizations are eligible in all countries
Physical Health Care Services (primary, secondary & tertiary)	BE-BG-CH-DE-ES-FR-GR-IT-RO	
Judicial Services	BE-BG-CH-DE-ES-FR-GR-IT-RO	
Accredited NGOs/ Community Organizations	BE-BG-CH-DE-FR-GR-IT-RO	Relevant agencies/ organizations are eligible in most of the countries
Mental Health Services	BE-BG-DE-FR-GR-IT-RO	
Law Enforcement related Services	BE-BG-CH-ES-FR-GR-IT	
Educational Services (preschool, primary & secondary)	BE-BG-DE-ES-FR-GR-RO	
Already existing registries/monitoring mechanisms	BE-BG-DE-ES-FR-RO	
Research Organizations/ Institutions	BE-BG-DE-FR	Relevant agencies/ organizations are eligible in some countries
Independent Authorities (such as Child Ombudsman)	BE-FR-GR	
Other	BE-ES-RO	

¹⁴ ISO 3166-1. Codes for the representation of names of countries and their subdivisions (part of the ISO 3166 standard published by the International Organization for Standardization)

¹⁵ ISO 3166-2. Country subdivision code (part of the ISO 3166 standard published by the International Organization for Standardization)

¹⁶ See Report: WS3_D2. Eligibility criteria for CAN-MDS Operators' Core Groups and Expanded Groups (2015). Athens: Institute of Child Health

Examples

Agency's Identity	Agency's Identity Data Elements				Agency	TIP: Readily available information deriving from the DE_R1 to be used: * From a public health perspective <i>-to periodically measure incidence of CAN and its specific forms based on data deriving from services' responses to CAN cases</i> <i>-per sector and service, at both, local and national level</i> For case-level administration <i>-to operate as a communication channel among sectors involved in administration of CAN cases</i> <i>-to facilitate follow-up at case-level</i>
	Country ISO 3166-1	Subdivision ISO 3166-2	Type of Service/ Organization (CAN-MDS)	3-digit ID NUMBER		
BG-23-CPS-001	BG	23	CPS	001	State Agency for Child Protection - Bulgaria	1 st Bulgarian Agency "Child Protection Services" in subdivision [region (en) / oblast (bg)] of Sofia in Bulgaria
BG-01-ROI-002	BG	01	ROI	002	South West University "Neofit Rilski", Faculty of Public Health and Sport – Bulgaria	2 nd Bulgarian Agency "Research Organization/ Institute/ University" in subdivision [region (en) / oblast (bg)] of Blagoevgrad in Bulgaria

* To collect data on which services receive/detect CAN referrals and are involved in administration of cases at both, local and national level. On the basis of the data that will be collected via this variable, the established network of agencies administrating CAN cases and working with maltreated children and their families will be outlined. This information would also be useful for future improvement of the criteria for eligible fields/ services to be included or excluded in the CAN-MDS as data-sources.

Moreover, knowing the identity of services involved in case administration could be useful for policy makers as a baseline for assessment of services' needs (at local and national level) for prioritizing the allocation of resources mainly for secondary and tertiary prevention of child maltreatment; furthermore, by profiling the route of case administration and the practices applied, they can strengthen potential synergies and work towards the adoption of agreements or protocols to facilitate agencies' cooperation and subsequently cases' administration.

Examples: Operator's ID

Instructions for creating Operators' IDs [DE_R2]

ID format	Instructions 17 or 18-digit CODE (depending on country specifics) formulated as follows: + 9 or 10-digit Agency's ID (DE_R1) + Operators Professional Specialty: 4-digit based on ILO (2007) ¹⁷ (see CAN-MDS Admin app) + 1 digit for the Access level (See CAN-MDS Admin app and Annex IIB) + 3-digit number indicating individual professionals working in the same Agency.
Prerequisites:	In order for a Professional to become Operator of CAN-MDS systems, s/he should: a. to fulfill the pre-defined eligibility criteria, namely to belong in one of the eligible groups of professionals ¹⁸ (see Annex IIC) b. to previously successfully attend the workshop for "CAN-MDS"
Secondary information needed:	Operator's contact details a. <i>necessarily</i> email and telephone number to be used for further communication with the Administrator b. further contact details (such as address) will be already available in the Annex I of the national version
Expected outcome:	A list is expected to be developed that will include all Operators to be involved in the system along with their codes and contact details. Only System's Administrator will have this list.
NOTE	Given that Operator's ID includes the Agency's ID, information on where the Operator works (geographically, specific agency, type of agency and agency's contact details) will be readily available.

Examples of eligible professionals' specialties to be involved in CAN-MDS as Operators per working field:¹⁹

Working field	Professional specialties
Welfare	Social Workers, Health Visitors, Care providers in institutions, other personnel (e.g. working in antitrafficking agencies, directorates for disability, Child Ombudsman etc.)
Justice	Judges (family courts, juvenile courts), Probation Officers, Public Prosecutors, Forensic surgeons' professionals, Lawyers, other justice related professions)
Health	Medical Doctors (general doctors and specialized doctors such as gynecologists, pediatricians, orthopedists, and radiologists), Midwives, Nurses, and Dentists
Mental health	Child-Psychiatrists, Psychiatrists, Psychologists, Licensed Counsellors (Youth Counsellors, Family Counsellors, etc.)
Law enforcement	Police Officers (in general and specialized police investigators e.g. in forensic interviews, for crimes against minors etc.)
Education	Teachers/Educators (pre-school, kindergarden, primary and secondary education, for children with special needs), School Principals / public & private schools
Other fields	Researchers, Data administrators, other school personnel (e.g. school guardians), other Public officials (e.g. ministries' employees), other NGOs personnel (e.g. above mentioned professional specialties,volunteers)

¹⁷ International Labour Organization. Resolution Concerning Updating the International Standard Classification of Occupations. Adopted at the Tripartite Meeting of Experts on Labour Statistics, 6 December 2007. (available at <http://www.ilo.org/public/english/bureau/stat/isco/isco08/>)

¹⁸ WS3 WS3 Creating Synergies; Activity 1 *Developing of eligibility criteria for the creation of national CAN-MDS Operators' Core Groups (in the context of the project) and of national Expanded Groups (to be included into national policy manuals); WS3 D3.1 Eligibility criteria for CAN-MDS Operators' Core Groups and Expanded Groups*

¹⁹ See Report: WS3_D2. Eligibility criteria for CAN-MDS Operators' Core Groups and Expanded Groups (2015). Athens: Institute of Child Health

Examples (please note that in the examples below the professional background is taken into account and NOT the academic title)

Operator's ID 17 or 18 digit code	Operator's Identity Data Elements				Operator	<p>Readily available information deriving from the DE_R2 to be used*</p> <p>From a public health perspective</p> <ul style="list-style-type: none"> - To outline the administrative practices applied for CAN cases, especially the groups of professionals involved in services' responses to CAN cases <p>For case-level administration</p> <ul style="list-style-type: none"> - To operate as a communication channel among professionals working in the same or different sectors and are involved in administration of common CAN cases - to facilitate follow-up at case-level
	Agency's Identity	Operator's Occupation Classification) ISCO 08	Level of access	3-digit ID NUMBER		
BG-23-CPS-001-2635-1-001	BG-23-CPS-001	2635	1	001	[National Coordinator's name]	Social Worker with level of access 1 (Full Access), 1 st professional working in 1 st Bulgarian Agency "Child Protection Services" in subdivision [region (en) / oblast (bg)] of Sofia in Bulgaria
BG-01-ROI-002-2212-2-001	BG-01-ROI-002	2212	2	001	[Operator's name]	Psychiatrist with level of access 2 (Restricted Access), 1 st professional working in the 2 nd Bulgarian Agency "South West University "Neofit Rilski", Faculty of Public Health and Sport" in subdivision [région (fr) / region (en) / oblast (bg)] of Blagoevgrad in Bulgaria

ID	The identity belongs to a professional who is
BG	working in Bulgaria
23	in Sofia region
CPS	in child protection services
001	specifically in State Agency for Child Protection
2635	s/he is a Social Worker
1	s/he has full access in the system (so is the Administrator)
001	s/he is the first professional of the specific organization in the CAN-MDS system

ID	The identity belongs to a professional who is
BG	working in Bulgaria
01	in Blagoevgrad region
ROI	In a research institute or organization
002	Specifically in South-West University
2212	s/he is a psychiatrist
2	s/he has access level 2 (s/he is an Operator)
001	s/he is the first professional from the specific organization in the CAN-MDS system

* To collect data on the professional background of "professionals-operators" who are involved in receiving referrals/ detect cases, recording of cases and involved in case administration in order to map their "responsibilities". These data could be useful for agencies' administrators and policy makers for assessing the educational needs of the different groups of professionals who are mainly involved in the administration of CAN cases. Moreover, this information would also be useful for future improvement of the eligibility criteria for potential CAN-MDS operators.

CAN-MDS off-line databases

The following files consist databases that should be kept by the National Administrative Authority separately from the online CAN-MDS System (in the context of Pseudoanonymization). Databases and data to be collected are included in the file “CAN-MDS off-line databases”. Although this file is provided in .xlsx format, National Administrators can prepare their own files in other formats (e.g. .mdb)

CAN-MDS off-line databases description

First two databases (in the .xlsx file sheets A and B) include information for the identity of the National Administrative Authority and Administrator(s), and for the Members of the National CAN-MDS Inter-Sectoral Board respectively:

A. National Administrative Authority's ID

Data to be collected for the “Identity of National CAN-MDS Administrative Authority and the Administrator(s)” database

B. Secondary Data for National CAN-MDS Inter-Sectoral Board

Data to be collected for the “Secondary Data for National CAN-MDS Inter-Sectoral Board Members” database	
Identity	Surname
	Name
Professional background, position in Agency and contact details	ISCO-08
	Position
	Personal phone number
	Personal email
Agency and Sector the Board Member represents	Agency's ID
	Agency's Name
	Legal status
	Field/ Sector
Agency's Contact details	Street name
	Street number
	Postal code
	Town
	Telephone number
	E-mail address
Signed ToR	Yes/No [template is needed]
	(if yes) date
Notes	

Next two databases (*Inventories*) are preparatory supportive documents continuously updated by the Administrator with the aim to create a pool of eligible organizations-potential data sources for the CAN-MDS as well as a pool of eligible professionals-potential operators for the system. To develop these inventories National Administrator is suggested to apply the methodology described in the report “*Methodology for define eligibility criteria for CAN-MDS Data Sources & Operators' Groups*” and use the respective tool. Through these inventories multisectoral Agencies-Data Sources and multidisciplinary professionals-Operators will be identified and be invited to contribute in the system with the support of the Intersectoral Board members by signing bilateral agreements and consent forms respectively. Those Agencies and Professionals that will join the system will be included in the DB2 and DB3 respectively.

Inventory of Eligible Data Sources

Data to be collected for the “Inventory of Eligible Agencies”	
Identity	Agency's Name
	Legal status
	Field/ Sector
Contact details	Street name
	Street number
	Postal code
	Town
	Telephone number
	E-mail address
Bilateral agreement	sent (Yes/No) [template is needed]
	(if yes) date
Notes	

Inventory of Eligible Professionals

Data to be collected for the “Inventory of Eligible Professionals”	
Identity	Surname
	Name
Professional background	ISCO-08
	Subject in Code of Ethics (yes/no)
	Available license (yes/no/na)
Contact details	Direct/personal phone
	Personal e-mail
Agency where s/he works	Agency's Name
	Town
	Telephone number
	E-mail address
Invitation	sent (yes [date]/no) [template is needed]
Level of access	
Notes	

Last three databases include secondary data and identifiers that are NOT included in the CAN-MDS system for security and confidentiality reasons for 1. children (alleged) victims involved in CAN incidents that are recorded in the system by the Operators, 2. the professionals-operators and 3. the agencies/ organizations/ services where operators are working.

DB 1. *Secondary Data for Child (alleged) Victim* is a database of crucial importance as this is going to be the sole document connecting subject of incidents of CAN-MDS System to involved persons (children, caregivers) identities in terms of pseudonymization.

Databases 2 and 3 are also important for the smooth operation of the system, although some of the information included there are also available in the CAN-MDS System (in the administrating panel).

DB 1. Secondary Data for Child (alleged) Victim

Data to be collected for the “DB 1. Secondary Data for Child (alleged) Victim” database	
CAN-MDS	Pseudonym
Child's Personal data	Surname
	name
	middle name
Contact details	what (home, relative, other)
	Street name

Working Files

The following documents are directly related to the operation of CAN-MDS System.

Files 1, 2, 3, 4 include secondary data for the creation of Agencies' and Users' Accounts that are also available through CAN-MDS Administrator application.

Files 5, 6, 7 are necessary for better understanding of specific types of neglect in each country (i.e. country specific information that should be included in the National version of the Operator's Manual of CAN-MDS Toolkit).

Files 8, 9 addressed to National Administrators. File 8 contains updated information/contact details for Ombudspersons that may invited in the respective National Inter-Sectoral Boards while file 9 contains the matching of CAN-MDS sub-data elements with other classification systems (such as DSM 5, ICD-10 and ICD-9) that may be useful in the context of research activities.

WORKING FILE 1. COUNTRY AND SUBDIVISIONS' CODES (ISO 3166-1 & ISO 3166-2)

WORKING FILE 2. TYPES OF AGENCIES (ORGANIZATIONS/SERVICES)

WORKING FILE 3. CLASSIFICATION OF PROFESSIONAL SPECIALTIES (ISCO-08, ILO 2008)

WORKING FILE 8. NATIONAL OMBUDSPERSONS

WORKING FILE 9. CORRESPONDANCE OF CAN-MDS CODES/SUBCODES WITH EXISTING SYSTEMS (DSM-V, ICD-10 & ICD-9)

WORKING FILE 1. COUNTRY AND SUBDIVISIONS' CODES (ISO 3166-1 & ISO 3166-2)

COUNTRY CODES (ISO 3166-1)

COUNTRY CODES (ISO 3166-1)²⁰ **Alpha-2 code** – a two-letter code that represents a country name, recommended as the general purpose code

Country abbreviation (2 letters)²¹

BG = Bulgaria

SUBDIVISION CODES (ISO 3166-2)

Subdivision codes (ISO 3166-2)²² – code that represents the name of a principal subdivision (e.g province or state) of countries coded in ISO 3166-1. This code is based on the two-letter code element from ISO 3166-1 followed by a separator and up to three alphanumeric characters. The characters after the separator cannot be used on their own to denote a subdivision, they must be preceded by the alpha-2 country code.

The codes denoting the subdivision are usually obtained from national sources and stem from coding systems already in place in the country.

WORKING FILE 2. Types of Agencies (Organization/Service)

Agency/ Organization/Service Type (3-letter): As no standards are available for Organization/Service Type, the following initialisms will be used for the formulation of Agency's ID

Organization/Service Type	3-letter initialism	Major Groups of Occupations belonging to each field (ISCO, 2008: broad classification) ²⁴
Child Protection Services	CPS	39-0000 <i>Personal Care and Service Occupations</i> 21-0000 <i>Community and Social Service Occupations</i>
Social Welfare Services	SWS	21-0000 <i>Community and Social Service Occupations</i> 39-0000 <i>Personal Care and Service Occupations</i>
Mental Health Services	MHS	19-0000 <i>Life, Physical, and Social Science Occupations</i>
Primary Health Care Services	PHC	29-0000 <i>Healthcare Practitioners & Technical Occupations</i>
Secondary Health Care Services	SHC	31-0000 <i>Healthcare Support Occupations</i> 11-0000 <i>Management Occupations</i>
Tertiary Health Care Services	THC	As SWS and PHC, SHC and THC
Socio-Medical Services	SMS	23-0000 <i>Legal Occupations</i> 43-0000 <i>Office and Administrative Support Occupations</i>
Judicial Services	JUD	33-0000 <i>Protective Service Occupations</i>
Police	POL	
Other Law Enforcement-related Services	LES	
Preschool Educational Facilities	PEF	25-0000 <i>Education, Training, and Library Occupations</i>
Primary Educational Services	PES	11-0000 <i>Management Occupations</i>
Secondary Educational Services	SES	43-0000 <i>Office and Administrative Support Occupations</i>
Vocational Educational Services	VES	
Already existing registries/CAN monitoring mechanisms	RSS	15-0000 <i>Computer and Mathematical Occupations</i>
Research Organizations/ Institutions/ Universities	ROI	19-0000 <i>Life, Physical, and Social Science Occupations</i> 15-0000 <i>Computer and Mathematical Occupations</i>
Independent Authorities (such as Child Ombudsman)	IAU	11-0000 <i>Management Occupations</i>
Accredited NGOs	NGO	NA (could be all the broad categories)
Community Organizations	COM	NA (could be all the broad categories)
Other Related Services	ORS	11-0000 <i>Management Occupations</i>

^{*}Professionals codes will be based on the detailed classification of occupations ISCO-2008 published by ILO, 2007.

²⁴ Bureau of Labor Statistics (2010). 2010 Standard Occupational Classification (final structure for the 2010 SOC). On behalf of the Standard Occupational Classification Policy Committee (SOCPC) (available at: http://www.bls.gov/oes/current/oes_stru.htm#11-0000).

WORKING FILE 3. CLASSIFICATION OF PROFESSIONAL SPECIALTIES (ISCO-08)

ISCO-08: International Standards for Classification of Occupations (ILO, 2007)

Available at: <http://www.ilo.org/public/english/bureau/stat/isco/docs/gdstruct08.doc> (word format) and at: <http://www.ilo.org/public/english/bureau/stat/isco/docs/gdstruct08.xls> (excel format).

"The Tripartite Meeting of Experts on Labour Statistics on Updating the International Standard Classification of Occupations (ISCO) [...]. Adopts, this sixth day of December 2007, the following resolution

- 1. The occupational classification system of major, sub-major, minor and unit groups shown in the Annex to this resolution is endorsed by the Meeting of Experts in Labour Statistics and is designated the International Standard Classification of Occupations, 2008 (ISCO-08).*
- 2. ISCO classifies jobs. A Job is defined for the purposes of ISCO-08 as a set of tasks and duties performed, or meant to be performed, by one person, including for an employer or in self employment.*
- 3. An occupation is defined as a set of jobs whose main tasks and duties are characterised by a high degree of similarity. A person may be associated with an occupation through the main job currently held, a second job or a job previously held.*
- 4. Jobs are classified by occupation with respect to the type of work performed, or to be performed. The basic criteria used to define the system of major, sub-major, minor and unit groups are the "skill level" and "skill specialization" required to competently perform the tasks and duties of the occupations.*
- 5. In collecting and processing statistics classified by occupation (e.g. for use in fields such as labour market analysis, educational planning, human resource planning, occupational health and safety analysis, wages analysis, etc.), each country should endeavour to compile data that can be converted to the ISCO-08 system, to facilitate the international use and comparison of occupational information."*²⁵

Duration of compulsory education/training and student's age-groups, 2018-2019

	Full-time education/training												Additional Compulsory Part-time
	Starting age					Leaving age						Duration (in years)	Ending age
	3	4	5	6	7	14	15	16	17	18	19		
BG			5		7			16				11	na
		ISCED 2011 level 0					ISCED 2011 level 1					na: non applicable	

Explanatory notes

In countries where compulsory education starts at pre-primary level (ISCED 0), the starting age of primary education (ISCED 1) is also indicated. The starting and leaving ages presented in this report are notional; early or late entry, grade retention or other interruptions to schooling are not taken into account.

ISCED 2011: International Standard Classification of Education

ISCED 0: Early Childhood Education Programmes at this level are typically designed with a holistic approach to support children's early cognitive, physical, social and emotional development and introduce young children to organised instruction outside of the family context. ISCED level 0 refers to early childhood programmes that have an intentional education component.

ISCED 1: Primary education Programmes at this level are typically designed to provide students with fundamental skills in reading, writing and mathematics (i.e. literacy and numeracy) and establish a solid foundation for learning and understanding core areas of knowledge, personal and social development, in preparation for lower secondary education. Age is typically the only entry requirement at this level. The customary or legal age of entry is usually not below 5 years old nor above 7 years old. This level typically lasts six years, although its duration can range between four and seven years.

ISCED 2: Lower secondary education Programmes at this level are typically designed to build on the learning outcomes from ISCED level 1. Students enter ISCED level 2 typically between ages 10 and 13 (age 12 being the most common).

ISCED 3: Upper secondary education Programmes at this level are typically designed to complete secondary education in preparation for tertiary education or provide skills relevant to employment, or both. Pupils enter this level typically between ages 14 and 16.

ISCED 4: Post-secondary non-tertiary education Post-secondary non-tertiary education provides learning experiences building on secondary education, preparing for labour market entry as well as tertiary education. Programmes at ISCED level 4, or post-secondary non-tertiary education, are typically designed to provide individuals who completed ISCED level 3 with non-tertiary qualifications required for progression to tertiary education or for employment when their ISCED level 3 qualifications do not grant such access. The completion of an ISCED level 3 programme is required to enter ISCED level 4 programmes.

ISCED 5: Short-cycle tertiary education Programmes at this level are often designed to provide participants with professional knowledge, skills and competencies. Typically, they are practically based, occupationally-specific and prepare students to enter the labour market. However, these programmes may also provide a pathway to other tertiary education programmes. Entry into ISCED level 5 programmes requires the successful completion of ISCED level 3 or 4 with access to tertiary education.

ISCED 6: Bachelors' or equivalent level Programmes at this level, are often designed to provide participants with intermediate academic and/or professional knowledge, skills and competencies, leading to a first degree or equivalent qualification. Entry into these programmes normally requires the successful completion of an ISCED level 3 or 4 programme with access to tertiary education. Entry may depend on subject choice and/or grades achieved at ISCED levels 3 and/or 4. Additionally, it may be

²⁷ European Commission/EACEA/Eurydice, 2018. *Compulsory Education in Europe – 2018/19*. Eurydice Facts and Figures. Luxembourg: Publications Office of the European Union.

required to take and succeed in entry examinations. Entry or transfer into ISCED level 6 is also sometimes possible after the successful completion of ISCED level 5.

ISCED 7: Master's or equivalent level Programmes at this level, are often designed to provide participants with advanced academic and/or professional knowledge, skills and competencies, leading to a second degree or equivalent qualification. Typically, programmes at this level are theoretically-based but may include practical components and are informed by state of the art research and/or best professional practice. They are traditionally offered by universities and other tertiary educational institutions. Entry into ISCED level 7 programmes preparing for a second or further degree normally requires the successful completion of an ISCED level 6 or 7 programme. In the case of long programmes that prepare for a first degree equivalent to a Master's degree, entry requires the successful completion of an ISCED level 3 or 4 programme with access to tertiary education. Entry into such programmes may depend on subject choice and/or grades achieved at ISCED levels 3 and/or 4. Additionally, it may be required to take and succeed in entry examinations. For the full details on each ISCED level, please consult: UNESCO, Institute for Statistics, 2012. International Standard Classification of Education. ISCED 2011.

Early childhood education and care (ECEC)

Provision for children from birth through to primary education that falls within a national regulatory framework, i.e., it has to comply with a set of rules, minimum standards and/or undergo accreditation procedures.

Source: European Commission/EACEA/Eurydice, 2019. *Key Data on Early Childhood Education and Care in Europe-2019 Edition*. Eurydice Report. Luxembourg: Publications Office of the European Union. Available at: https://eacea.ec.europa.eu/national-policies/eurydice/sites/eurydice/files/ec0319375enn_0.pdf

Age from which a place in ECEC is guaranteed, 2018/19

	BG
Starting age (in years) of guaranteed ECEC place	5

Explanatory note: The Figure shows the earliest age from which a place in ECEC is guaranteed for all children. In the table, a legal entitlement is shown in black, while compulsory ECEC is marked in bold dark red.

Country-specific notes

Greece: Compulsory ECEC attendance is being gradually implemented until 2020/21.

France: ECEC attendance will become compulsory from age 3 on 1st September 2019 (final parliamentary discussion in progress).

Cyprus: 4.7 years correspond to 4 years 8 months.

Weekly ECEC hours, by type of guarantee, 2018/19

	BG
Legal entitlement	-
Compulsory ECEC	15-17

* no top-level regulations

Explanatory note: When the number of hours or the type of guarantee (legal entitlement/compulsory ECEC) varies by age, the earliest age threshold is shown in the figure. When the number of hours varies by region or by type of guarantee, the lowest number is taken into account.

Country-specific notes

Belgium: 28 periods of 50 minutes.

Bulgaria: 5-year-olds: 15-22 hours; 6-year-olds: 17-24 hours.

Germany: Top-level legislation states that the extent of daily care is based on the child's individual need – 10 of the 16 Länder have specifications ranging from a guaranteed 4 hours a day up to 10 hours. The higher levels are in the eastern Länder (Schreyer and Oberhuemer, 2017).

Switzerland: Cantonal regulations vary. In some cantons, the number of weekly hours exceeds 20.

A: absence of recommendation; MA: mandatory for all; MR: mandatory for people at risk; R: recommended; RA: recommended for all;

RR: not recommended for people at risk.

¹ Mostly recommended for girls 10–12 years of age.² Mandatory for healthcare workers.³ RA: children born prior to 2010 and younger than five years of age.⁴ RA: conjugated vaccine to children younger than two years of age.⁵ RR: polysaccharide vaccine to older persons.⁶ Not included in the national immunisation programme, but recommended by the Ministry of Social Affairs (ref).⁷ MA: children up to 28 months of age.⁸ MR: healthcare workers.⁹ RA: older than 15 years of age.¹⁰ MA: children up to 12 years of age.¹¹ MR: healthcare workers.¹² RA: older than 15 years of age.¹³ RA: preschool children for non-core vaccine.¹⁴ RA: from 2011.¹⁵ One of 20 regions does not have any mandatory vaccination as of 2008.¹⁶ Regional variability.¹⁷ RA: only in one region.¹⁸ RA: mandatory for girls by the age of 14.¹⁹ RR: for children under two years of age.²⁰ MR: social care facilities.²¹ MR: children six months to 12 years, mainly, for some diagnoses, for some professions.²² MR: direct contact with infectious person, some professions.²³ MR: chronic liver disease, children two years of age living in bad conditions, some professions.

WORKING FILE 7. Secondary Data for Mandatory reporting of CAN

(Professional) group	Mandated for report CAN	Related law
1. All	Mandated to report CAN to Social Assistance Directorate, the State Agency for Child Protection or the Ministry of the Interior	<p>Child Protection Act, Art. 7</p> <p>(1) (Supplemented, SG No. 36/2003) Persons, who become aware of the existence of a child in need of protection, shall immediately report the case to the Social Assistance Directorate, the State Agency for Child Protection or the Ministry of the Interior.</p> <p>(2) (2) The same obligation shall be undertaken by all persons, who become aware of the said situation in the course of exercising their profession or occupation, irrespective of them being bound by an occupational secret.</p> <p>Child Protection Act, Art. 45, par. 11, and Art. 46, par. 2. In case of established non-compliance with the above provisions, the legislator has provided for sanctions - imposition of a fine, as the penal decree is issued by the chairman of the SACP.</p>
2. State Agency for Child Protection	Mandated to report child at risk to Department of Child Protection/SAD	<p>Child Protection Act Art. 7, par. 3 The signals received by the SACP for a child at risk are immediately forwarded in the CPD to the SAD at the current address of the child.</p>
3. All	Mandated to report Neglect to Social Assistance Directorate	<p>Child Protection Act Art. Чл. 36 a, par. 1 Anyone who becomes aware that there is an imminent risk of abandonment of a child or that a child has been neglected must immediately report it to the Social Assistance Directorate.</p>
4. Medical specialists	Mandated to report CAN to Social Assistance Directorate	<p>Health Act (Art. 125a) postulates that medical specialists are obliged to report to Social Assistance Directorate all risk cases for child abuse and neglect.</p>
5. Medical specialists	Mandated to report risk of abandonment to Social Assistance Directorate	<p>Health Act, Art.125, par. 1 The medical specialists are obliged to notify the Social Assistance Directorate at the location of the medical institution for each child born in the medical institution for which there is a risk of abandonment,</p>

		including in the absence of an identity document of the mother at the birth of the child. , in a mother with many children, in a mother with serious or multiple diseases.
6. Medical specialists	Mandated to notify the bodies of the Ministry of Interior and the Social Assistance Directorate	Health Act, Art.125, par. 1 Medical specialists working in medical institutions or health offices are obliged to notify the bodies of the Ministry of Interior and the Social Assistance Directorate of any child admitted to the medical institution or visited the health office who is a victim of violence.
7. Medical institutions GPs	Mandated to report risk of abandonment to Social Assistance Directorate	Child Protection Act Art.36 b, par. 1 The manager of the medical institution where the maternity ward is located and the personal doctor of a pregnant woman, who have become aware that there is an immediate risk of abandoning a child immediately after birth, are obliged to immediately report to the SAD Child Protection Act Art.36 b, par. 3 The same obligation has the manager of the medical institution where a newborn live child is found, abandoned or thrown.
8. Prosecution authorities	Mandated to report CAN to Social Assistance Directorate	Child Protection Act Art.36 d, par. 6 When the violence or exploitation of a child is committed by a person to whom the child is entrusted for the provision of care, protection, treatment or training on the basis of a court decision, labor or other. contract, the prosecuting authorities, when submitting the file to the court, shall immediately inform the SAD at the current address of the child and the respective employer for immediate separation of this person from the child or from the children.
9. Social Assistance Directorate	Mandated to report to Court or Prosecutor	Child Protection Act Art. 36 d, par. 4 When the violence is committed by a parent, by a person entrusted with the care of the child, or by a person to whom the child is entrusted, the SAD may turn to the court or prosecutor to take measures against the perpetrator. Child Protection Act Art. 36 d, par. 4 In case of data for committed crime, SAD sends a signal to the regional prosecutor's office.

WORKING FILE 9. Matching of CAN-MDS with existing systems (DSM-V, ICD-10 and ICD-9)

DSM-5 Diagnoses and ICD-9-CM and ICD-10-CM Codes, Numerical ICD-10-CM Listing and CAN-MDS coding

This is a listing of the DSM-5 diagnoses with ICD-10-CM codes and ICD-9-CM codes (this listing includes the corrections dated 6/20/13)

DSM-IV-TR codes are (a subset of) ICD-9-CM codes and so can probably be found in the ICD-9-CM column.

Adaptation of CAN-MDS Toolkit to country specifics

why needed

The CAN-MDS promotes the usage of a standard set of variables in order to collect comprehensive, comparable and reliable data among stakeholders deriving from different sectors within and among countries.

On the other hand, however, there are given differences among countries that should be handled in order for the CAN-MDS to be feasible to be applied in practice.

First, it is not possible for the system to operate in a single language; this makes translation of the whole toolkit imperative.

In addition, there are data elements such as agencies and operators to be involved that should be developed on the basis of the reality of each country.

Next, country profile reports showed differences in terms of already available infrastructures, practices, policies and legislation in regards to CAN cases administration; adaptation taking into account such country specifics should be made in order for the data elements to target valid and reliable data collection.

Lastly, content validity of the definitions of data element should be ensured for each individual data element, without however to modify the structure of the MDS. Instructions and definitions should be appropriate for all target groups (i.e. CAN-MDS operators with different professional backgrounds and responsibilities in the route of CAN cases administration), in order useful data to be collected and the collected data to be useful for all stakeholders.

which parts should be adapted in which way

Operator's Manual, e- application and Data collection protocol are the main components of CAN-MDS Toolkit. Supportive material for the Toolkit includes the eligibility criteria for Sectors and Operators and methodology for identifying the eligible data sources, the capacity building package (training module, training material, Trainer's Guide and evaluation methodology and tools) and the country profile reports, including up-to-date information for CAN related aspects (such as available infrastructures, legislation and ethics) at a national level.

From the above mentioned material methodology for national adaptation targets in CAN-MDS Toolkit, namely the Operator's Manual, e-application and Data collection protocol. Adaptation includes translation from EN to national official languages, development of content on the basis of national data, addition of country specific information and references and cultural adaptation of content on the basis of focus group discussions.

Tables 1 and 2 below suggests detailed adaptation to be used for each individual part of the toolkit

how to adapt the CAN-MDS Toolkit into National version

Translation

World Health Organization in its document entitled *Process of translation and adaptation of instruments*²⁹ mentions that *"the aim of this process is to achieve different language versions of the English instrument that are conceptually equivalent in each of the target countries/cultures. That is, the instrument should be equally natural and acceptable and should practically perform in the same way. The focus is on cross-cultural and conceptual, rather than on linguistic/literal equivalence. A well-established method to achieve this goal is to use forward-translations and back-translations"*.

It is noted that in the context of the project only forward translation is provisioned (in terms of financial resources); it is suggested, however, that small samples of the material to be back-translated in order to be ensured the conceptual equivalent of the national version of the toolkit to English toolkit.

²⁹ World Health Organization. Process of translation and adaptation of instruments Available at: http://www.who.int/substance_abuse/research_tools/translation/en/

As for the forward translation, the recommendations that included in the above mentioned document are valid also for the case of CAN-MDS Toolkit. In this case the translator should preferably be a professional familiar with terminology of the area of child maltreatment and epidemiological surveillance; s/he should be knowledgeable of the English-speaking culture but his/her mother tongue should be the primary language of the target culture. National coordinator in each country should provide the translator with instructions in regards to the approach to translate such as to emphasize conceptual rather than literal translations, as well as the need to use natural and acceptable language for the CAN-MDS groups of operators, which are in fact heterogeneous.

World Health Organization suggests that the following general guidelines should be considered in this process:

- *Translators should always aim at the conceptual equivalent of a word or phrase, not a word-for-word translation, i.e. not a literal translation. They should consider the definition of the original term and attempt to translate it in the most relevant way.*
- *Translators should strive to be simple, clear and concise in formulating a question. Fewer words are better. Long sentences with many clauses should be avoided.*
- *The target language should aim for the most common audience. Translators should avoid addressing professional audiences such as those in medicine or any other professional group. They should consider the typical respondent for the instrument being translated and what the respondent will understand when s/he hears the question.*
- *Translators should avoid the use of any jargon. For example, they should not use:*
 - *technical terms that cannot be understood clearly; and*
 - *colloquialism, idioms or vernacular terms that cannot be understood by common people in everyday life.*
- *Translators should consider issues of gender and age applicability and avoid any terms that might be considered offensive to the target population.*

agency	translation	
agency's ID	translation+additional information (if applicable) and reference to respective law (if applicable) and secondary data-working file 6 (see also working file 1)	develop agencies' IDs and list the agencies (at least those where the core group's professionals working in Annex (Annex I)

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
		Secondary data (working file 6) [Agency's Name]; [Postal_Address (street number; street name; postal code)]; [Phone_Number]; [Email_Address]
alcohol use by the child	translation+additional information (if applicable) and reference to respective law (if applicable)	national legislation-if exists (e.g. for selling alcohol to persons<18)
amputation	translation	
anonymous source of information	translation	
anorexia nervosa	translation+note "for informational reasons only"	
apparent harm	translation	
assessment by child protection /social welfare services	translation+adaptation (if needed) and additional information (if applicable)	modify definition (if needed) and add information - if specific practices are in place
association	translation+additional information (if applicable)	provide examples of well-known associations
attempted sexual abuse	translation	
avoidant/restrictive food intake disorder	translation+note "for informational reasons only"	
beating	translation	
binding	translation	
binge eating disorder	translation+note "for informational reasons only"	
biological family	translation	
biting	translation	
blood relation	translation+adaptation (if needed)	modify definition (if needed)
blood relative	translation	
boarder	translation	
boxing ear	translation	
branding	translation	
bulimia nervosa	translation+note "for informational reasons only"	
bullying	translation	
burning	translation	
by-law relative	translation	
caning	translation	
CAN-MDS administrator	translation	Working file 8

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
CAN-MDS axis	translation	
CAN-MDS short training	translation (and for more information see D4.1, D4.2, D4.5, D4.6)	
CAN-MDS	translation (and for more information see D2.1, D2.2, D5.4, D5.6)	
caregiver	translation	
child (alleged) victim	Translation (and secondary data -see also working file 7)	Secondary data (working file 7) Child's personal data [Child's Surname, Name, Middle name, Parents' Name, date of birth]; [Postal_Address]; [Phone Number]: Shared: sent by the Operators to CAN-MDS Administrator
child maltreatment	translation+reference to respective law (if applicable)	
child protection services or social welfare services emergency protection procedures	translation+additional information (if applicable)	if specific procedures are provisioned
child	translation+adaptation (if needed) and reference to respective law (if applicable)	modify definition (if needed) - for example, if existing legislation for individuals >18 treated as children
child's caregiver	translation	
child's citizenship status	Translation (and secondary data)	Secondary data Country legislation of citizenship status
child's date of birth (DoB)	translation	
child's emergency placement	translation+additional information (if applicable)	if specific procedures are provisioned
child's ID	translation+additional information (if applicable)	specific format of child pseudonym (if you decide a different way than the suggested)
child's sex	translation+adaptation (if needed)	modify definition (if needed) - especially in regards to the codes related to intersex and transgender
children's home/residential institution	translation+additional information (if applicable) and reference to respective law (if applicable)	you may provide some examples of residential care
choking	translation	
chronic inattention to the child	translation	
chronic truancy	translation+additional information (if applicable) and reference to respective law (if applicable) (see also working file 4)	country specific information on the number of unjustified absences allowed according to child's age
citizenship	translation+additional information (if applicable) and reference to respective law (if applicable)	country provisions

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
close confinement	translation	
code of ethics	translation+additional information (if applicable)	provide examples of professions subjected to code of ethics
code of practice	translation+additional information (if applicable)	provide examples of professions subjected to code of ethics
coincidental identification of child maltreatment incident	translation	
community agency personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition (if needed) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
community agency	translation+adaptation (if needed) and additional information (if applicable)	modify definition (if needed) and provide examples of well-known community agencies
compulsory school	translation+reference to respective law (if applicable); see also working file 4	
corporal punishment and “disciplines”	translation+reference to respective law (if applicable)	
corruption	translation	
court order for perpetrator(s) to leave the home or to prosecute perpetrator(s)	translation+additional information (if applicable)	if specific procedures are provisioned
court	translation+adaptation (if needed)	modify definition (if needed) according to what is applicable in your country (e.g. family court exists or not)
custodial parent	translation+reference to respective law (if applicable)	
custody refusal and abandonment	translation+adaptation (if needed)	modify definition (if needed)
cyber-bullying	translation	
date of birth (DoB)	translation	
date of incident	translation	
date of record	translation	
date	translation	
day care institution	translation+adaptation (if needed) and additional information (if applicable) and reference to respective law (if applicable)	modify definition (if needed) - provide examples of day-care institutions

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
day-care service personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition (if needed) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
day-care	translation+adaptation (if needed)	modify definition (if needed)- adapt according to what is applicable in your country
degrading conditions of detention	translation+additional information (if applicable) and reference to respective law (if applicable)	standards for detention conditions for persons <18 (if applicable)
deliberate infliction of disabilities	translation	
dental care neglect	translation+additional information (if applicable)	standards for dental care (if applicable)
denying emotional responsiveness	translation	
designated professional-CAN-MDS operator	translation	
detention or correctional institution	translation+additional information (if applicable) and reference to respective law (if applicable)	provide examples of detention/correctional institutions
diagnosed feeding and eating disorder	translation+note "for informational reasons only"	
disability support services personnel	translation+additional information (if applicable) and reference to respective law (if applicable) and secondary data-working file 10	provide examples of disability support services Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
disability	translation+adaptation (if needed)	modify definition (if needed)
dowry-related violence or death	translation	
dropped out	translation+additional information (if applicable) and reference to respective law (if applicable) (see also working file 4)	provisions for mandatory schooling
drugs use by the child	translation+additional information (if applicable)	provisions for drugs/ alcohol use for persons <18
eating and feeding disorder	translation+note "for informational reasons only"	
educational institution	translation+additional information (if applicable)	provide examples of out-of-school educational institutions
educational neglect	translation (see also working file 4)	
education-related professions	translation	
elder abuse	translation+reference to respective law (if applicable)	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
eligibility criterion for operators	translation (and for more information, see D3.1)	
eligible CAN-MDS operator	translation (and for more information, see D3.1)	
eligible professional groups for CAN-MDS	translation+adaptation (if needed) - for more information, see D3.2	modify definition (if needed)
emotional neglect	translation	
ethics in the CAN-MDS	translation (and for more information, see D4.1, D4.5 and D4.6)	
ethics	translation (and for more information, see D4.5 and D4.6)	
exorcism after accusations of “witchcraft”	translation	
exposure to a violent environment outside household	translation	
exposure to any kind of violence in the family	translation+reference to respective law (if applicable)	
exposure to risk	translation	
exposure to violence via electronic means	translation+additional information (if applicable) and reference to respective law (if applicable)	description of standards for non-exposure to violence (e.g. television)
failure to provide with basic medical care	translation	
family abduction	translation+reference to respective law (if applicable)	
family composition	translation	
family friend	translation	
family members	translation	
family	translation+adaptation (if needed)	modify definition (if needed) - define according to national law
fattening	translation	
female genital mutilation	translation+reference to respective law (if applicable)	
female	translation	
flogging	translation	
focus of referral	translation	
follow-up	translation+additional information (if applicable)	description, if specific procedures are provisioned
forced circumcision	translation	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
forced feeding	translation	
forced marriage and early marriage	translation+additional information (if applicable) and reference to respective law (if applicable)	mention legal marriage age
forced sterilization	translation	
forcing child to beg	translation	
forcing child to exposed in pornography	translation	
forcing child to get married	translation	
forcing child to involve in pornography	translation+reference to respective law (if applicable)	
forcing child to participate in a violent political event	translation+adaptation (if needed)	modify definition (if needed)
forcing child to participate in religious ritual	translation+adaptation (if needed)	modify definition (if needed)
forcing child to undertake adult's responsibilities	translation	
forcing child to undertake criminal behaviour	translation	
forcing child to witness sexual violence against mother	translation+reference to respective law (if applicable)	
forcing of child to prostitution	translation+reference to respective law (if applicable)	
forcing to ingest spicy food	translation	
forms of maltreatment	translation	
foster care	translation+reference to respective law (if applicable)	
foster family	translation	
foster parent	translation	
friend's family	translation	
full access	translation	
full view access (level 1)	translation+adaptation (if needed)	modify definition (if needed)
gender	translation	
grabbing	translation	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
grandparent(s)	translation	
has not attended school at all	translation+adaptation (if needed) - see also working file 4	modify definition (if needed)
health care organization	translation+additional information (if applicable)	provide examples of health organizations
health related professions	translation	
health services personnel	translation+additional information (if applicable) and reference to respective law (if applicable) and secondary data-working file 10	indicate if mandatory reporting Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
health services	translation	
helpline personnel	translation+adaptation (if needed) and additional information (if applicable) and secondary data (see working file 10)	modify definition (if needed) - indicate if mandatory reporting Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
helpline	translation+additional information (if applicable)	provide examples of well-known national helplines
hitting on head	translation	
hitting on the soles of the feet	translation	
hitting with an object	translation	
home	translation	
hospitalization of child in mother/child shelter	translation+additional information (if applicable)	provide examples of well-known child-mother shelters
humiliation	translation	
ICT	translation	
ID (identification)	translation	
identified incident	translation+additional information (if applicable)	if specific procedures of routine screening are provisioned
ignoring	translation	
illegal transfers of custody	translation+adaptation (if needed) and reference to respective law (if applicable)	modify definition (if needed)
immediate intervention	translation+additional information (if applicable)	if specific interventions are provisioned other than the ones mentioned below

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
imposing of death sentence	translation+reference to respective law (if applicable)	
inadequate or inappropriate clothing	translation	
inadequate or inappropriate nutrition	translation	
inadequate or inappropriate personal hygiene	translation	
inadequate or inappropriate shelter	translation	
inadequate supervision	translation	
inappropriately advanced expectations	translation	
incident ID	translation	
incident of child maltreatment	translation	
incident	translation	
inflicting scars/scarring	translation	
initiation of court measures	translation+adaptation (if needed) and additional information (if applicable) and reference to respective law (if applicable)	modify definition (if needed) - if specific procedures are provisioned
initiation of forensic evaluation	translation+additional information (if applicable) and reference to respective law (if applicable)	if specific procedures are provisioned
institutional and system violations of child rights	translation+additional information (if applicable) and reference to respective law (if applicable)	age that children are subjected to detention penalties
institutional response	translation+additional information (if applicable)	mention the time period normally required for a service to be provided
intentional poisoning	translation	
intersex or intermediate	translation+adaptation (if needed)	modify definition, if needed (e.g. the case that this code is not applicable)
intimate partner violence (IPV)	translation+reference to respective law (if applicable)	
irregular school attendance	translation+additional information (if applicable) and reference to respective law (if applicable) (see also working file 4)	according to what provisioned by the education-related laws
isolation	translation	
justice-related professions	translation+adaptation (if needed)	modify definition (if needed)
kicking	translation	
kindergarden	translation+adaptation (if needed)	modify definition - if different for your country

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
kinship care	translation+reference to respective law (if applicable)	
labour/economic exploitation	translation+additional information (if applicable) and reference to respective law (if applicable)	legal age for entering into labour market (salaried work)
lack of supervision	translation	
law enforcement related professions	translation+adaptation (if needed)	modify definition, if needed (e.g. in Italy there also i carabinieri)
law enforcement services	translation+adaptation (if needed)	modify definition (if needed)
law enforcement	translation	
learning difficulty	translation+note "for informational reasons only"	
leisure	translation	
level of access	translation (and for more information, see D3.2)	
limited access (level 2)	translation (and for more information, see D3.2)	
limited access (level 3)	translation (and for more information, see D3.2)	
location of incident	translation	
locking up	translation	
majority	translation	
male	translation	
mandatory vaccination	translation (see also working file 3)	
medical neglect	translation	
mental health exam(s)	translation+additional information (if applicable)	if specific mental health exams are provisioned
mental health professions	translation	
mental health service	translation+additional information (if applicable)	provide examples of well-known mental health services
mental health services personnel	translation+additional information (if applicable) and reference to respective law (if applicable) and secondary data-working file 10	indicate if mandatory reporting Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
minimum data set (MDS)	translation	
Munchausen Syndrome by Proxy	translation+note "for informational reasons only"	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
national CAN-MDS administrator	translation+additional information (if applicable) + secondary data - working file 8)	[Name-to be completed] Secondary data [working file 8] Legal status of the administrator's agency]; and [Field where the administrator's agency belongs]; contact details: telephone number(s): [to be completed]; email(s): [to be completed]
national ombudsman	translation+additional information (if applicable) and reference to respective law (if applicable); see also working file 5	if applicable (also for deputy obmudsman for children's rights)
NGO	translation+additional information (if applicable)	provide examples of well-known NGOs
NGOs/association personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition (if needed) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
non compulsory school	translation+adaptation (if needed) - see also working file 4	modify definition (if needed)
noncustodial parent	translation	
non-family abduction	translation	
ombudsman personnel	translation+adaptation (if needed) and secondary data (working file 10) and see also working file 5	modify definition if needed (and if applicable) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
omission	translation	
omissions	translation	
online sexual stalking and harassment	translation	
operator	translation	
operator's ID	translation (and secondary data-see working file 8) (see also working file 2)	Secondary data (working file 11) [Operator's Name]; [profession]; [Phone_Number]; [Email_Address]
ordinary/juvenile court and related services personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition (if needed) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
other not-related household member	translation	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
other relative(s)	translation	
other relevant professionals	translation+adaptation (if needed)	modify definition (if needed)
other specified feeding or eating disorders	translation+note "for informational reasons only"	
other substance misuse by the child	translation+note "for informational reasons only"	
out of home placement	translation+reference to respective law (if applicable)	
overprotection	translation	
parent(s)' partner(s)	translation	
parent	translation	
persistent failure to register the child at the school	translation (see also working file 4)	
persistent ignoring of the child's emotional needs	translation	
personnel	translation	
physical bullying	translation	
physical medical exam(s)	translation	
physical neglect	translation	
physical violence acts	translation+reference to respective law (if applicable)	
pica	translation+note "for informational reasons only"	
pinching	translation	
planning of intervention	translation+additional information (if applicable)	if specific procedures are provisioned
playground	translation	
police emergency protection procedures	translation+adaptation (if needed) and additional information (if applicable)	modify definition (if needed) and add information if specific procedures are provisioned
police intervention (immediate interventions)	translation+adaptation (if needed) and additional information (if applicable)	modify definition (if needed) and add information if specific procedures are provisioned
police or other law enforcement services personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition (if needed) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
police	translation	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
preschool	translation+additional information (if applicable)	if needed according to country specifics
primary caregiver	translation	
primary caregiver's date of birth	translation	
primary caregiver's relationship to child	translation	
primary caregiver's sex	translation+adaptation (if needed)	modify definition (if needed)
primary health care services	translation+additional information (if applicable)	provide example of primary health care services
private schools/institutions	translation+additional information (if applicable)	provide well-known examples
professional licence/certification	translation+additional information (if applicable)	provide examples of professions requiring license/ certification
providing child with sexually explicit material	translation	
pseudonymization	translation (see also ISO/TS 25237:2008. Health informatics – Pseudonymization)	
psychological violence acts	translation	
psychologically “unavailable” caregivers	translation	
public place	translation	
public schools/institutions	translation+additional information (if applicable)	provide examples of public schools/ institutions
public transportation mean	translation+adaptation (if needed)	modify definition (if needed) according to what is applicable in your country
pulling hair	translation	
pushing	translation	
recommended vaccination	translation+adaptation (if needed) - see also working file 3	modify definition (if needed) according to what is applicable in your country
re-composed family	translation	
recreational area	translation+additional information (if applicable)	provide examples of well-known recreational areas
recreational or leisure area or a playground	translation	
referral of child to child protection /welfare services	translation	
referral to service	translation	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
referral	translation+additional information (if applicable) and reference to respective law (if applicable)	provisions related to mandatory reporting of CAN (e.g. for specific professional groups, public officials and the general public) (working file 10)
refusal of child's custody	translation	
refusal or failure to provide preventive health care	translation+adaptation (if needed)	modify definition if needed (if, for example, it is permitted to caregivers to not provide specific health care due to religious or cultural reasons)
refusal to allow /provide needed medical care for diagnosed health condition/ impairment	translation+adaptation (if needed)	modify definition if needed (if, for example, it is permitted to caregivers to not provide specific health care due to religious or cultural reasons)
refusal to allow needed attention to special educational needs	translation	
refusal to attend special educational needs	translation	
refusal to provide needed attention to special educational needs	translation	
rejection	translation	
relation by law	translation+adaptation (if needed)	modify definition (if needed)
relative's family	translation	
removal of parent(s)' rights	translation+additional information (if applicable) and reference to respective law (if applicable)	provisions for removal of parental rights
residential care institution	translation+additional information (if applicable) and reference to respective law (if applicable)	provide examples of well-known residential care institutions
restraining in cloth sacks	translation	
retribution violence	translation	
right of blood	translation+adaptation (if needed)	modify definition /provide information of whether this is applicable in your country
right of the soil	translation+adaptation (if needed)	modify definition /provide information of whether this is applicable in your country
routine screening	translation+additional information (if applicable) and reference to respective law (if applicable)	if specific routine screening is applied
rumination disorder	translation+note "for informational reasons only"	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
runaway	translation+adaptation (if needed)	modify definition according to what is applicable in your country (e.g. after how many hours a child is considered that runaway)
sale child for sexual purposes	translation+reference to respective law (if applicable)	
scalding	translation	
school/kindergarten/preschool personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition if needed, according to what is applicable in your country Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
school	translation	
scratching	translation	
screening tool	translation+additional information (if applicable)	if specific screening tool is applied please mention AND annex
secondary health care services	translation+additional information (if applicable)	provide example of secondary health care services
sectors related to CAN	translation+adaptation (if needed)	modify definition (if needed)
self-harm actions	translation	
self-inflicted injuries	translation	
service's response	translation+additional information (if applicable)	describe standards (set by the organization itself) for service provision in terms of quantity [: for example, the number of counselling sessions or medical interventions than needed] and timeliness [: within the normal time for the provision of the specific service by the specific agency];
services for people with disabilities	translation+additional information (if applicable)	provide example of services for people with disabilities
sex	translation	
sexual exploitation acts	translation	
sexual harassment	translation	
sexual luring via ICT	translation	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
sexual slavery	translation	
sexual violence acts	translation	
sexually explicit material	translation	
shaking baby syndrom	translation+note "for informational reasons only"	
shaking	translation	
shooting	translation	
showing genitals to child	translation	
sibling(s)	translation	
slapping	translation	
smacking	translation	
social bullying	translation	
social services	translation+adaptation (if needed) and reference to respective law (if applicable)	modify definition/ adapt the description of what is applicable in your country (e.g. if CPS are in place)
social welfare (public) system personnel	translation+adaptation (if needed) and secondary data (working file 10)	modify definition (if needed) Secondary data [working file 10] whether the <i>source of information</i> is mandated to report CAN or not
source of information	translation	
spanking	translation	
specific incident of child maltreatment	translation	
sports-athletics	translation	
stabbing	translation	
staying in uncomfortable positions	translation	
step parent	translation	
stoning	translation	
substance	translation+adaptation (if needed) and reference to respective law (if applicable)	modify definition/ adapt content if needed (legal/ illegal substances) according to country specifics
substance use/abuse by the child	translation+reference to respective law (if applicable)	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
substance use/abuse	translation	
substantiation status of maltreatment	translation+additional information (if applicable)	if specific procedures/ classification of substantiation is applied in your country
suicidal thoughts	translation	
suicide attempt(s)	translation	
supportive intervention for current caregivers	translation+additional information (if applicable)	if specific supportive interventions are provisioned
suspected maltreatment	translation	
terrorization	translation	
tertiary health care services	translation+additional information (if applicable)	provide example of tertiary health care services
threatened sexual abuse	translation	
threatening with a knife or with a gun	translation	
threats of maltreatment	translation	
throwing	translation	
torture	translation+reference to respective law (if applicable)	
touching genitals	translation	
trafficking	translation+reference to respective law (if applicable)	
trained professional as CAN-MDS operators	Translation (and secondary data-see also working file 9)	Secondary data [working file 9] Name, Profession, Agency, Address, Telephone, email (personal)
transgender	translation+adaptation (if needed)	add note that this is applicable or not in your country
travel and tourism sexual exploitation	translation+reference to respective law (if applicable)	
twisting ears	translation	
tying up or tying to something	translation	
type of family	translation	
unborn	translation+additional information (if applicable) and reference to respective law (if applicable)	describe provisions for rights of unborns and/or abuse of unborns (if applicable)
unjustified delay to seek medical care	translation	
unstable custody arrangements	translation+reference to respective law (if applicable)	

term	Suggested adaptation (translation/ modification/ addition of information and/or reference) Supporting working files and reports (where applicable)	modification of definition (if needed) and/or additional national information (if applicable) and/or secondary data (where applicable)
use the child in commercial sexual exploitation	translation+reference to respective law (if applicable)	
uvulectomy	translation	
vaccination related neglect	translation (see also working file 3)	
verbal assaulting	translation	
verbal bullying	translation	
violence in the guise of treatment	translation	
violence	translation	
violent acts against self	translation	
violent acts known also as harmful practices	translation+reference to respective law (if applicable)	
violent acts related to child's exploitation	translation+reference to respective law (if applicable)	
violent acts related to child's exposure	translation+reference to respective law (if applicable)	
violent acts with or without obvious consequences	translation	
violent and degrading initiation rites, "hazing"	translation+additional information (if applicable)	if country specific types of hazing are applicable
virginity testing	translation	
vision care neglect	translation+additional information (if applicable)	if specific vision care procedures are provisioned
voyeurism	translation	
welfare related professions	translation	
withholding essential medical care	translation+adaptation (if needed)	add note if, for example, it is permitted to caregivers to not provide specific health care due to religious or cultural reasons

ANNEX I: Off line databases_templates (.xlsx file)

ANNEX II: Tool for Definition of Eligibility Criteria for CAN-MDS Operators (.xlsx file)

ANNEX III: Focus Group Protocol & Discussion Guide

To take place after piloting of the system (OPTIONAL)

Suggested Methodology for modifications and further cultural adaptation of CAN-MDS Toolkit

Focus Group Discussions

AIM: *to assess content validity, quality and feasibility of each individual element in CAN-MDS*

- 2 groups * 10 Operators / country
 - o *Professional specialties of Operators should represent all eligible professional groups and sectors*

Planning the Focus Groups

- *Preparing Invitation letters**
- *Define the venue & the dates*

Focus group results

- *Reporting*
 - o *Considering revision of the national version of the Toolkit according to FG results*

*** Invitation for participation to the Focus Groups Discussions**

- Invitation letter is suggested to include
 - a brief description of the objectives of discussion group and of the procedure
 - instructions to Operators to prepare in advance their notes/observations for any issue they would like to discuss.

Overview of FGs

	Suggested Process & Organization
Method	Group session
Group size	10 participants + 2 moderators
Number of Groups	2 groups (at least) /country * 6 countries
Session duration	120 min
Time	After the end of pilot phase
Place	TBD per country
Participants	Professionals who participated in CAN-MDS piloting as Operators
Recruitment of participants	Written invitations and further communication via phone where needed
Participants preparation	Preparation of notes and observations in advance
Group synthesis	Professional specialites of operators to represent all relevant sectors
Moderator(s)	National Administrator and Local coordinators or Researcher Moderator: coordinate the discussion Co-moderator: keeping the minutes of the discussion
Moderators' discussion guide	Document including the issues to be discussed, instructions for moderating the discussion, time to be devoted per topic
Other material	Invitation letters; a copy of Toolkit; a list of CAN-MDS data elements
Data to be collected	Qualitative
Data collection	Written minutes and voice recording
Analysis of data	Descriptive analysis of repeated issues, comments and suggestions Presentation of selected quotations (words, sentences, expressions)
Reporting	Brief description of aim and method of FG Presentation of results and references for any specific part of the Toolkit suggested to be modified A list of the modifications suggested for the national CAN-MDS

FOCUS GROUP DISCUSSION CAN-MDS Toolkit (after piloting – optional) [120 MIN PER GROUP]

Opening of the Discussion

TOPIC 1: CONTENT OF the Toolkit

[10 min]

As the participants get prepared for the discussion, the moderator asks the following questions:

1. Do you think that the way the content is presented meet the objectives of the CAN-MDS?
 - a) *As for the content of the Toolkit, is there any point that you don't agree with?*

TOPIC 2: STRUCTURE & FUNCTIONALITY OF Toolkit

[10 min]

1. In general, how would you evaluate the structure of the Toolkit?
 - a) *Do you think that the Toolkit was useful for you as an operator of the CAN-MDS System?*
 - b) *Is there anything that you don't understand regarding the instructions for the use of the Toolkit?*

TOPIC 3: CAN-MDS Data Elements

[25 min]

CLARITY & PRECISION

1. To your opinion, is there any data element that it is not understandable and that it requires changes/modifications?

TIP: Use a table with the 18 data elements of the CAN-MDS in order to record how many professionals indicate each individual variable

TOPIC 4: Data Collection

[50 min]

APPLICABILITY & USABILITY

1. Did you had the opportunity to record any CAN incidents in the CAN-MDS during the piloting?
 - a) *If yes, how many incidents you recorded?*
 - b) *If no, what was the reason for this?*
 - c) *There were cases that you could record but you decided to not do it?*
 1. *If yes, what was the reason?*
2. Did you had any specific difficulties in the whole process? If yes, they were relevant
 - a) *To the online application use?*
 - b) *To the operator's manual use?*
 - c) *To the protocol for data collection?*
 - d) *To the communication with the National Administrator?*
 - e) *To other aspects of the system (such as)?*
3. Is there anything you like to suggest in order to improve the system?

TOPIC 4: Closing

[15 min]

1. In general, what's your opinion regarding the idea of developing a system, such as the CAN-MDS?
 2. Do you think that your participation as a CAN-MDS operator is useful for your work?
-

Management and processing of results: From the focus groups' discussion a bulk of information is expected to result regarding participants' opinions and comments.

To this end, especially if the discussion has not been recorded by electronic means (such as voice recorder), it is suggested that immediately after ending each group, the moderators to meet and consolidate what they record (such as excerpts) and summarize the main points of the discussion, potential patterns observed in the answers, by identifying the topics on which there was agreement or disagreement. They should also record all alternative proposals for improvement.

The answers (qualitative data) and words- or key-phrases should be recorded and grouped into categories under general headings corresponding to the topics included in the respective discussion guide for each group. Once completing the recording of answers, the different views and attitudes and the extent to which group members agreed (they actually had the same opinion) can then be separated. Combining the common responses will result in the general pattern of responses, which will determine whether the material requires further modifications or not.

To facilitate and systematize this process, a template can be used as in the example below, in which the Discussion Guide's topics are recorded in the first column and participants' answers can be recorded in the second column.

Keeping notes from FGs. Template for the systematization of answers from a focus group with professionals

TOPIC 1: CONTENT OF the Toolkit	Comments (initials of professional's name based on the attendance list)
Do you think that the way the content is presented meet the objectives of the CAN-MDS?	e.g.
As for the content of the Toolkit, is there any point that you don't agree with?	A.B.

TOPIC 2: STRUCTURE & FUNCTIONALITY OF Toolkit	Comments (initials of professional's name based on the attendance list)
In general, how would you evaluate the structure of the Toolkit?	e.g. AB:
<i>Do you think that the Toolkit was useful for you as an operator of the CAN-MDS System?</i>	A.B.
<i>Is there anything that you don't understand regarding the instructions for the use of the Toolkit?</i>	

TOPIC 3: CLARITY AND PRECISION PER DATA ELEMENT	Comments (initials of professional's name based on the attendance list)	DE:
<p>To your opinion, is there any data element that it is not understandable and that it requires changes/modifications?</p>	<p>e.g. AB:</p>	

TOPIC 4: Data Collection APPLICABILITY & USABILITY	Comments (initials of professional's name based on the attendance list)
<p>Did you had the opportunity to record any CAN incidents in the CAN-MDS during the piloting?</p>	<p>e.g. AB:</p>
<p>If yes, how many incidents you recorded?</p>	<p>A.B.</p>

<p>If no, what was the reason for this?</p>	
<p>There were cases that you could record but you decided to not do it?</p> <p>If yes, what was the reason?</p>	

Did you had any specific difficulties in the whole process? If yes, they were relevant

a) To the online application use?

b) To the operator's manual use?

c) To the protocol for data collection?

d) To the communication with the National Administrator?

e) To other aspects of the system (such as)?

Is there anything you like to suggest in order to improve the system?

TOPIC 5: CLOSING	Comments (initials of professional's name based on the attendance list)
<p>In general, what's your opinion regarding the idea of developing a system, such as the CAN-MDS?</p>	<p>e.g. AB:</p>
<p>Do you think that your participation as a CAN-MDS operator is useful for your work?</p>	<p>A.B.</p>
